SUMMARY OF THE AUDITED RESULTS FOR THE YEAR ENDED 31 DECEMBER 2019

The Board is pleased to announce the audited financial results of the Group for the year ended 31 December 2019.

PERFORMANCE

The Bank registered a group profit after tax of K17.16b from K15.97b reported in 2018 representing an increase of 7%. Non-interest income grew by 10% while Net interest and investment income grew by 12%. Overall Net revenue grew by 11% while Operating expenses increased by 6%, notwithstanding staff rationalisation costs that were incurred during the first half of the year. The loan book grew by 13% and customer deposits increased by 8% year on year.

THE OPERATING ENVIRONMENT

The economy experienced some negative shocks as a result of cyclone Idai which ravaged parts of the southern region coupled with poor tobacco export receipts compared to the previous year. Inflation averaged 9.4% in 2019 (2018: 9.2%) but closed the year 2019 at 11.5% (2018: 9.9%) as a result of increases in food inflation attributed to seasonal factors.

In the second half of the year, the banking industry adopted the use of a reference rate which has ranged from 12 % to 13.4%. The Reserve Bank of Malawi has been gradually dropping the Policy Rate from 16% January 2019 to the current 13.5%. Correspondingly commercial Banks have gradually reduced their lending rates.

The Malawi Kwacha appreciated in the last quarter of 2019 from about K761/1USD at the beginning of July 2019 to K732/1USD at the end of 2019. Economic activity for the year remained subdued largely on account of both the pre and post-election activities which included a series of demonstrations which disrupted business activity and raised the country risk.

DIVIDEND

The Bank paid an interim dividend of K2.5b in September 2019 (2018: K2.5b) and a second interim dividend amounting to K1.5b on 30 March 2020 (2018: K1.5b). The directors recommend a final dividend of K4.3b (2018: K3.5b) making a total dividend of K8.3b in respect of 2019 profits representing K17.78 per ordinary share (2018: K16.06 per share). The final dividend will be payable after approval by the Annual General Meeting scheduled for June 2020.

OUTLOOK

The economy was expected to grow by 5.2 % in 2020 on account of the agriculture sector due to favourable weather conditions. Inflation was also expected to start declining towards the medium-term target of 5% by end of 2021.

The likelihood of achieving the above targets has now been undermined by an unstable operating environment arising from political uncertainty following the nullification of the Presidential election results as this could affect effective policy making and implementation. Climate shocks and the impact of the COVID-19 on the country and its trading partners will also affect the growth prospects.

The Bank is implementing a strategy that seeks to embed customer centricity deeply into its culture with digitalisation being one of the key pillars in the quest for delighting its customers. The year 2020 will therefore be characterised by the launch of various value adding digital initiatives.

In its efforts to expand its operations beyond the borders of the country, the Bank is in the process of acquiring a controlling stake of a bank in Tanzania. The process of securing regulatory approvals both locally and internationally is underway.
